

M. WAQAS KASHIF

Graphic Designer

I'm the kind of designer who doesn't just create visuals, I craft experiences that leave a lasting impact. With strong skills in Adobe Photoshop and Illustrator, I can design all sorts of digital graphics, from logos, banners to mockups and adverts

I'm a quick learner, an intuitive thinker, and a relentless creative who thrives under pressure. My work isn't just about making things look good; it's about driving engagement, enhancing brand identity, and delivering results that matter.

EXPERIENCE

UNITED SERVICES

- Repairing and restoring damaged or scratched documents.
- Designing professional letterheads and CVs.
- Preparing documents and images for print, and handling the printing process.

KOLACHI SERVICES
